

Add PDF Knowledge to Your Copilot

Lab Duration: 15 Minutes

Lab Overview

In this lab, you will upload a **PDF document** as a knowledge source in Microsoft Copilot Studio. Once the document is indexed, your copilot will answer questions using the information contained in the PDF.

Learning Objectives

After completing this lab, you will be able to:

- Upload a PDF document as a knowledge source.
 - Configure the knowledge source.
 - Test your copilot using PDF-based information.
 - Verify that the PDF has been indexed successfully.
-

Suggested PDF

(Any PDF containing policies, FAQs, or product information can be used.)

Business Scenario

Contoso HR wants employees to ask questions about company policies instead of searching through a 100-page Employee Handbook. You have been asked to make the handbook available to the HR Copilot.

Lab Instructions -

Task 1 – Open Your Copilot

Step 1 - Open **Microsoft Copilot Studio**.

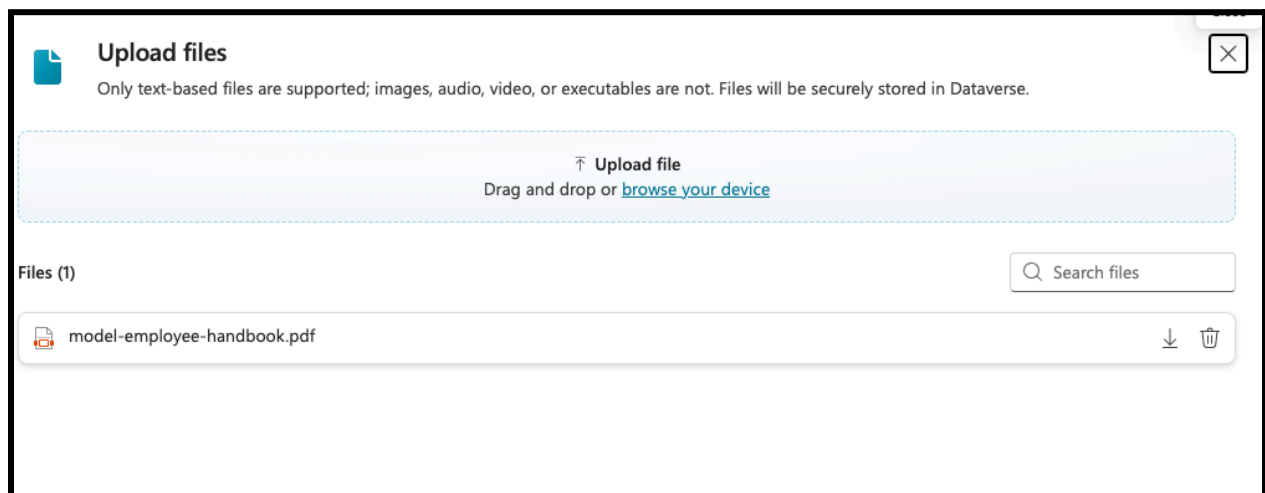

Step 2 - Open the agent created in the previous lab.

Task 2 – Upload the PDF

Step 1 - From the left navigation pane, select **Knowledge**

Step 2 - Click **+ Add knowledge**

Step 3 - Select **Upload file**

Task 3 – Select the PDF

Step 1 - Click **Browse**.

Step 2 - Select the sample PDF.

Example: **model-employee-handbook.pdf**

Step 3 - Wait for the upload to complete.

Task 4 – Configure the Knowledge Source

Provide the following details.

Field	Value
Name	Employee Handbook
Description	Company HR policies, employee benefits, leave policy, code of conduct, holidays and workplace guidelines.

Click **Add to agent**

Task 5 – Wait for Indexing

After uploading, the file status changes while Copilot Studio processes it.

Possible statuses include:

- Processing
- Indexing
- Ready

Wait until the status shows

Task 6 – Test the Copilot

Open the **Test your agent** pane.

Ask the following questions.

Question 1

What is the company's Equal Employment Opportunity policy?

Question 2

What is the company's policy on discrimination?

(Use questions that match the content of your PDF.)
